### **DETAILED ACTION**

This office action is in response to application filed February 27, 2004.

#### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 19-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 19, 20, 22, 25, 26 recites:

A hierarchical key construction system, comprising:

a plurality of search key sections, wherein the sections are substantially provided by:

- (a) a first selection level having first fields;
- (b) a second selection level having second fields; and
- (c) a third selection level having third fields.

the claim only recites relationships between the elements of the data structure itself. It therefore effects no physical transformation, appears to have no practical application, and thus is non-statutory.

#### ***Allowable Subject Matter***

Claims 1-18 are allowed.
